The required information is available in the form of print resources and digital resources in the Library. Now the Print resources like text books & journals price has increased highly. In this condition there are no sufficient funds or grants to acquire the books & journals. To overcome this financial crisis our Government of India has created several Educational Digital Initiatives with free of cost for Higher Education. And also huge numbers of Open Access Resources are available at Internet to get Scholar information. From these freely accessible resources the college Librarian has developed this VGDC_ELP site (Visvodaya Govt. Degree College E-Learning Portal) to access categorized online e-resources.
