BEST PRACTICE

NAME OF THE PROGRAM : No Book Day

INSTITUTION :VISVODAYA GOVT.DEGREE COLLEGE,
VENKATAGIRI

PARTICIPANTS :All Students

AIMS & OBJECTIVES:

The program aims at achieving the following:

- To train the students in areas apart from the prescribed books
- To provide education needed for life along with traditional art forms
- To reduce the academic burden and to alleviate the stress of students in order to make learning joyful

CONTEXT: Several recent surveys on education conclude that studies in recent times have become monotonous and stressful for students. It is mainly because education is confined to the four walls of the classroom and to the prescribed syllabi. Such restricted environment limits the imagination and creativity of the students. Furthermore, they do not find proper application of the knowledge gained in the classroom in their real lives. Therefore, our institution felt that it was time for some change and came up with the practice of No Books Day in 2021 and has been observing it once a month.

PRACTICE: On the last working day of every month our students are not supposed to bring books to the college and no formal classroom instruction takes place. The day is devoted to practical and experiential learning. They are involved in various interesting activities such as art and craft, plantation, cultural programmes, games and sports, nature visits, debates/discussions on current issues etc. Lecturers act as mere facilitators and they try to hunt the individual talents so as to motivate them towards the right career goals.

Activities :

JAM SESSION

TOPIC NAME : MY CAREER GOAL AND ACTION PLAN

ON

30-08-2022

The English Department of Visvodaya Govt. Degree College recently conducted a JAM (Just A Minute) session on "My Career Goal and Action Plan" for the students. The aim of the session was to encourage students to reflect on their career aspirations and develop an action plan to achieve them. The students were given a minute to express their thoughts on their career goals and share their action plans with the group. The session helped in promoting self-awareness, critical thinking and communication skills among students.

“ NATIONAL SCIENCE DAY”

ON

28-02-2023

The Science Departments of Visvodaya Govt. Degree College recently organized a Science Day programme, which included various activities aimed at promoting scientific awareness among students. One of the highlights of the event was an exhibition of a photo gallery showcasing the latest advancements and breakthroughs in the field of science. The exhibition provided students with an opportunity to explore and learn about various scientific phenomena and technologies.

Evidence of Success: Students find the day quite exciting and come up with their multiple talents. Especially, the attendance of slow learners to classes increased a lot after the implementation of this day. They could gain confidence and perform well in studies as well. We are able to identify several sports men/women, singers, dancers etc. and encourage them to showcase their talents at various external competitions.

Problems Encountered: In the beginning students wouldn't come forward to exhibit their skills in public but we could gradually motivate them. Also, some students turn mischievous occasionally but our staff are meticulous enough to control them.

Note: This initiative is a good opportunity for us to identify the hidden talents among our students.
